Retribution and Expiation.

Crime is often expiated by the innocent. This is one of the divine mysteries of the universe, but the fact is not to be denied. The solemn recognition of it in the second inaugural address of our late president struck many people at the time as strange and incongruous, and shallow critics ridiculed the inaugural as a very poor sermon. Now, illustrated by his own terrible death, we see its truth and Concord, will be held at the WEST CONCORD its momentous import, and we cannot but SCHOOL HOUSE, SATURDAY, MAY 13TH feel that it was an almost prophetic utterance. Let us re-peruse and weigh his words as he lies stricken down before us:

"The Almighty has his own purposes. · Woe unto the world because of offences, for it must needs be that offences come, but wee to that man by whom the offence cometh.' If we shall suppose that American slavery is one of these offences, which, MANHOOD: in the providence of God, must needs come, but which having continued through His appointed time, He now wills to remove, and that He gives to both North and that He gives to both North and the standard of the standar and that He gives to both North and South this terrible war as the woe due to those by whom the offence came, shall we discern there is any departure from those and that He gives to both North and divine attributes which the believers in a of cure at once simple, certain and effectual, by means of which the offers at manufacturers reduced prices. It is curious that the third instance of the succession of a Vice President to the vacant chair of the President is marked, as were the two former instances, by the fact that the vacancy occurs in the very early part of the term office. President Harrison was inaugated March 4, 1841, and died April 4 of the same year, one month after his inauguration. Presi-Taylor was inaugurated eight years later March 4, 1849, and died July 9, of the next year, about one year and four months after entering office. President Lincoln was inaugurated for the second term on March 4, 1865, and was killed April 14, less than two months after the commencement of the term.
